CORSICANA, TEXAS

RETAIL CATALOGUE FOR 1941-42

"The Complete Home is the Planted Home"

C. 25632

GAIN, it is with considerable pride that we offer you this, our 1941-1942 catalogue. We have this year the biggest, and most complete stock that we have ever grown and are consequently in better position to serve you than ever before. On account of rains and good growing conditions our plants are of better quality.

Our business is built upon a desire that your dealings with us shall be satisfactory from your own standpoint. It is our aim at all times to sell the very best stock possible, but since we have no control over weather conditions, disease and insect infestations, or carelessness on the part of the customer in the selection of soil and location as well as the planting itself, we do not guarantee plants to live. Our only guarantee is that the plants are true to name and in good condition when sold. Any plant dying within six months after planting will be replaced at half price.

We are glad at all times to talk to you about your landscaping or planting problems and when plants are bought from us, we make no charge for help of this kind.

C. C. McClung

ROSES

Every home, regardless of size, should have some roses, not only for their beauty in the garden, but for cut flowers for the house. Roses will grow in almost any soil. They demand good drainage, both sur-

face and underground. Since they are found growing well in clayey, black land, and sandy soil, it can hardly be said that they prefer any particular kind of soil, except that it must be loose and have good drainage.

ROSE BEDS should be prepared in advance, all grass and weeds removed, dirt well spaded. As a general rule we do not recommend that fertilizer be added until after planting. Fertilizer should not be put too close to plants. Let the feeder roots feed to the fertilizer.

OUR ROSES are two years old, field grown, budded on Rosa Multiflora Japonica understock. So when you buy roses from us you can rest assured that you are buying the very best that are to be had.

Buy roses by grade. The words "two year old field grown" have no descriptive meaning as to the grade plant that you are to get, but simply

mean that plants so described have been in the field two years and might have one cane or a half a dozen, a good root system or no roots at all. Do not be deceived by these advertising tactics.

We especially invite inquiries from Garden clubs, Home Demonstration clubs, and Civic organizations on special prices on co-operative buying.

* RED

Red Radiance—Deep rose red in color, very fragrant, well formed globular flowers, very hardy and a profuse bloomer.

Ami Quinard—Black lustred red in color, slender pointed buds opening to velvety, semi-double flowers.

E. G. Hill—Dazzling scarlet, hardening as bud opens. Flowers borne on long stems ideal for cut flowers. One of the best dark reds.

Etoile De Hollande—Brilliant Red, magnificent size. One of the best.

Margaret McGredy—Oriental red passing to carmine rose as bloom ages.

* PINK

Pink Radiance—Brilliant rose pink with lighter tints on reverse of petal.

Edith Nellie Perkins—Long pointed buds of cream and orange; when open inside of petals show salmonpink with gold base.

Betty Uprichard — Semi-double, copper-red buds open to soft salmon pink on inner surface and orange-carmine inside

Briarcliffe — Deep pink. Long pointed buds.

Columbia — Imperial pink. Very fragrant.

Dainty Bess—Delicate pink with brownish-red overcast, contrasting center of wine-red stamen. Single petal.

* YELLOW

Luxemburg—Color in bud coralred shaded chrome yellow, opens to large flower of shrimp pink shaded to coppery orange.

Sunburst—Golden yellow, lighter at edges of petals, long, pointed buds.

Mrs. Pierre S. Dupont—Rich golden yellow, long pointed bud, ornamental foliage, extremely disease resistant.

Talisman — Brilliant orange-red buds open to large golden-yellow flower stained with copper-red and orange.

Hoover — Maroon, orange, and gold. Long pointed buds.

* WHITE

Caledonia—Long white bud. Vigorous plant. The best white rose.

Antoine Revoire — Buds large. Blooms double and full. White suffused with pink.

Kaiserin August Viktoria—Creamy white, large pointed buds.

CLIMBING ROSES

To Glorify Your Fences, Trellises, Summer Houses, Porches, Walls

Paul's Scarlet—Vivid scarlet, not monthly.

Climbing Columbia — Imperial pink.

Pink Pearl-Pink.

Marie Henrietta-Pink.

Climbing Talisman— Exactly like bush rose.

Climbing Hoover — Exactly like bush rose.

American Pillar—Pink with white center.

White American Beauty-White.

POLYANTHAS

Also known as Ever-blooming Baby Roses. They require very little attention, —are strikingly effective used as a hedge.

Ideal — Rich, lustrous, garnet blooms.

Golden Salmon — Bright orange flowers in huge cluster.

Gloria Mundi — Orange scarlet. Ellen Poulsen — Soft rose-pink.

GLADIOLUS BULBS

THE MCCLUNG NURSERY

—Grows Gladioli by the acres. We invite you to visit our fields when they are in bloom (usually in May and June). This is one of the best cut flowers that grows, and will keep for a week after being cut. Our Gladioli Bulbs are all nice, plump, and of blooming size, producing beautiful flowers the first year planted. "GLADS" are everybody's orchid—They will bloom for you—ORDER EARLY!

Make Your Garden a Glorious Picture

With a Selection of These Easy-to-Grow GLADS

Choice Dris

In this section of the country, Iris do exceptionally well. Fine for Border Planting, giving you a mass of colors through the Months of May and June. The light green leaves, tapering to a point, are valuable in floral arrangements. The slender flower stalks bear delicate, gorgeous flowers in a wide variety of colors, some solid, some mixed. Try these outstanding Iris:

Louis Bel — One of the darkest purple, blooming early.

Lohengrin — Cattleya rose.

Golden Glow — A beautiful yellow.

Primrose—Deep clear yellow.

Pioneer-Fine red purple self.

Princess Beatrice — Lavender.

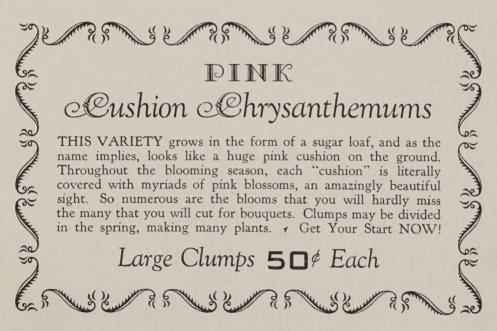

Quaker Lady — Smoky lavender shaded yellow, some rose.

Taj Mahal — A very fine pure white, flowers of a fine shape, heavy waxy substance. Has a rugged constitution, increases rapidly.

Sky Blue — One of the most popular. The color is as the name implies.

Sweet Lavender - Very fragrant.

IRIS RHIZOMES: 15¢ Each - \$1.25 Dozen

EVERGREENS

Among the coniferous or cone-bearing evergreens are to be found types and species in sufficient variety to fill any and all needs of beautification work. The great variety as to color, shape, habit of growth, and size, together with the fact that their beauty is year-round, make this group especially desirable in all kinds of landscape beautification. All coniferous evergreens are shipped with ball of dirt and burlapped.

JUNIPERUS (JUNIPERS)

Chinensis Pfitzeriana — "Pfitzer's Juniper." One of the best known and most widely used evergreens. Low growing, wide-spread horizontal branches irregular in outline. Bluish green foliage.

15-18 in.—60c, 18-24 in. \$1.00, 2-3 ft. \$1.50, 3-4 ft. \$2.00.

Juniper Excelsa Stricta — "Spiny Greek Juniper." 6 ft. Dwarf, compact, decidedly conical. Grayishgreen foliage. Adapted for formal plantings or any place where dwarf plant is required.

15-18 in.—75c; 18-22 in.—\$1.00; 2-3 ft.—\$1.25.

Juniperus Virginiana — "Platte River Red Cedar." 30 ft. Dark green foliage taking on a bronzish-purple hue in late fall through winter. Our trees have been sheared regularly and are very desirable where a tall slender, graceful plant is needed. Especially good for formal planting.

3-4 ft.—\$1.25; 4-5 ft.—\$1.50; 5-6 ft.—\$2.00; 6-7 ft.—\$2.25; 7-8 ft. \$2.50.

CYPRESS

Arizona Cypress—40 ft. Grayish green, very hardy, nicely sheared. 2-3 ft.—75c; 3-4 ft. \$1.00; 4-5 ft.—\$1.25; 5-6 ft.—\$1.50.

Cedrus Deodara—30 ft. A pyramidal plant, foliage bluish green with spreading branches.

15-18 in.—75c; 18-24 in.—\$1.00.

Italian Cypress—30 ft. Tall—soft dark green foliage.

15-18 in.—50c; 18-24 in.—75c; 2-3 ft.—\$1.00; 3-4 ft.—\$1.25; 4-5 ft.—\$1.50.

THUJA ORIENTALIS (ARBORVITAE)

T. O. Aurea Nana—"Berkman's Golden." 6 ft. Dwarf in habit, compact and symmetrical outline. The branches are tipped with golden tint.

12-18 in.—50c; 18-24 in. 75c; 2-3 ft. \$1.25; 3-4 ft. \$1.50.

T. O. Bakeri—"Baker's Arborvitae." 12 ft. Compact cone shaped. Dark green foliage. One of the best for this section.

18-24 in.—50c; 2-3 ft. 85c; 3-4 ft. \$1.75. 1.25 T. O. Bonita—5 ft. Perfectly globe shaped. Dark green foliage.

12-18 in. 60c; 18-24 in. \$1.00; 2-3 ft.—\$1.50.

T. O. Golden Bonita—Same as Bonita except tips of branches are golden in color.

12 in.—40c; 12-15 in.—60c; 15-18 in.—90c; 18-24 in.—\$1.25; 2-3 ft.
—\$1.50.

T. O. Excelsa—2 ft. Much like Baker's except foliage is coarser and more open.

18-24 in.—50c; 2-3 ft.—85c; 3-4 ft.—\$1.50.

T. O. Ramseyi—"Ramsey's Hybrid." 15 ft. Dark green foliage, erect narrow growth.

18-24 in.—50c; 2-3 ft.—85c; 3-4 ft.—\$1.00; 4-5 ft.—\$1.25; 5-6 ft. \$1.50.

A & M. College No. 6 — Dark green foliage, erect in growth.

2-3 ft.—85c; 3-4 ft.—\$1.00; 4-5 ft. —\$1.25; 5-6 ft. \$1.50.

Wintergreen—2-3 ft—85c; 3-4 ft. \$1.00; 4-5 ft.—\$1.50.

Chinese Arborvitae—12 ft. Dark green, very hardy. Excellent for hedges.

2-3 ft.—60c; 3-4 ft.—75c. Prices on quantities furnished upon request.

Goldspire Arborvitae—15 ft. Golden foliage, fairly open in growth. 2-3 ft.—\$1.00; 3-4 ft.—\$1.25.

BROADLEAFED EVERGREENS

In this group are to be found the wide variety of colors that makes possible the many different shades of green, the reds and bronzes, and the various grays. In addition to holding their beautiful foliage the year round, most plants in this group provide you with flowers in spring and summer and many of them with various colored berries in the winter.

ABELIA GRANDIFLORA — 6 ft. Bronzy-green foliage, arching stems clothed with fragrant, pinkish-white flowers. Blooms all summer and fall. Fine for hedges. 2-3 ft.—75c; 3-4 ft.—\$1.00; 4-5 ft.—\$1.25.

ACACIA, Yellow — 10 ft. Covered with yellow flowers in summer and fall. 2-3 ft.—75c; 3-4 ft.—\$1.25; 4-5 ft.—\$1.50.

BOX WOOD — Slow growing; valued in gardens for many uses. 9-12 in.—50c; 12-15 in.—65c.

EUONYMUS JAPONICA — 10 ft. Compact and upright in growth. Glossy, dark green foliage. Fine specimen plants or may be trained to wall or fence. Adapted to shearing. 2-3 ft.—75c; 3-4 ft.—\$1.00.

EUONYMUS SEIBOLDI — 10 ft. A spreading evergreen shrub of unusual hardiness. Sheds leaves in spring just before new growth starts. Bursting seed pods display red seed in winter. 12-18 in.—50c; 2-3 ft.—75c.

COTONEASTER PANNOSA — 6 ft. Graceful arching branches and leaves white beneath. 18-24 in.—50c; 2-3 ft.—75c.

COTONEASTER PARNAYI — 5 ft. Thick, nearly black leaves with large red berries. 18-24 in.—50c; 2-3 ft.—75c; 3-4 ft.—\$1.25.

COTONEASTER AUGUSTIFOLIA — 8 ft. Thorny, upright growth, light green foliage. 18-24 in.—50c; 2-3 ft.—75c; 3-4 ft.—\$1.25.

ELAEAGNUS PUNGENS — 8 ft. Fragrant flowers in Autumn followed by red fruit having silver and brown scale. 15-18 in.—75c; 18-24 in.—\$1.00; 2-3 ft.—\$1.25.

GARDENIA FORTUNEI — "Everblooming Cape Jasmine." 5 ft. Blooms all summer. $1-1\frac{1}{2}$ ft.—60c; $1\frac{1}{2}-2$ ft.—\$1.00; 2-3 ft.—\$1.50.

GARDENIA GRANDIFLORA — "Common Cape Jasmine" — 8 ft. 1½-2 ft.—75c; 2-3 ft.—\$1.50.

JASMINE FLORIDUM — "Italian Jasmine." 3 ft. Flexuous branches, dark glossy green foliage. Half inch golden yellow flowers all during growing season. Fine wherever a low spreading effect is desired. 2-3 ft.—75c; 3-4 ft.—\$1.00.

JASMINE PRIMULINUM — "Primrose Jasmine." More vigorous and upright than Jasmine Floridum. Has larger blooms, and blooms in early spring. 2-3 ft.—75c; 3-4 ft.—\$1.00; 4-5 ft.—\$1.25.

LAVENDULA VERA — "True Lavender." 2 ft. A low growing, many stemmed plant, gray in color. 8-12 in.—60c; 12-18 in.—90c.

LAUROCERASUS CAROLINIANA — "Cherry Laurel." 20 ft. Glossy green foliage. Will make tree or may be sheared to any desired shape. 1-1½ ft. —60c; 2-3 ft.—\$1.00; 3-4 ft.—\$1.25; 4-5 ft.—\$1.75; 5-6 ft.—\$2.50.

LEUCOPHYLLUM (SENISA) — L. Texanum. 6 ft. Beautiful silver foliage. Beautiful lavender-blue flowers. Grows low and compact. 12-15 in.—75c; 18-24 in.—\$1.00.

LODENSE DWARF PRIVET — A very low dense, compact grower; foliage dark green turning bronze in fall; especially good for low hedge or sheared in formal shapes. 15-18 in.—25c each.

LONICERA HEKROTTI — "Evergreen Honeysuckle." Climbs readily but may be shaped to bush form. 2 year plants 65c.

PETTOSPORUM — 3 ft. Dark green elongated heavy leaved slow growing evergreen shrub. 15-18 in.—65c.

YAUPON ILEX VOMITORIA — Evergreen shrub or small tree with red berries. 15-18 in.—75c; 18-24 in.—\$1.00; 2-3 ft.—\$1.25.

LIGUSTRUM (EVERGREEN PRIVETS)

AMUR RIVER PRIVET — 15 ft. May be used as specimen plant, screen plantings, or hedges. 18-24 in.—6c; 2-3 ft.—7c; 3-4 ft.—10c; 4-5 ft.—12c.

CALIFORNIA PRIVET — 12 ft. More upright in growth than Amur River, but not as hardy. 18-24 in.—6c; 2-3 ft.—7c; 3-4 ft.—10c.

LIGUSTRUM JAPONICA — "Japanese Ligustrum." 15 ft. Upright growing broad leaf variety with dark green, glossy foliage. Has white flowers in spring, followed by dark purple berries in winter. Makes ideal screen planting, or may be used as evergreen shade tree. 2-3 ft.—65c; 3-4 ft.—75c; 4-5 ft.—\$1.00; 5-6 ft.—\$1.25.

LIGUSTRUM LUCIDUM COMPACTA—"Wax Leaf Ligustrum". 6 ft. 18-24 in.—\$1.00; 2-3 ft.—\$1.25; 3-4 ft.—\$1.50.

MAGNOLIA GRANDIFLORA — "Southern Magnolia." 40 ft. Slow growing, but makes large, stately tree, glossy dark green foliage and large white flowers. 2-3 ft.—\$1.50.

MYRTUS COMMUNIS — "Common Myrtle." 8 ft. Leaves small and pointed, shining green in color. Highly aromatic. Small white flowers followed by purple berries. Suited to damp places. 2-3 ft.—\$1.00; 3-4 ft.—\$1.25.

NANDINA DOMESTICA — 6 ft. Upright in growth with many canes or stems springing from same root. Foliage is glossy green in spring and summer, changing to a coppery red in winter. White flowers in spring are followed by red berries which stay on allwinter. 10-12 in.—50c; 1-1½ ft.—\$1.00; 2-3 ft.—\$1.50.

PHOTINIA SERRULATU — "Low Photinia." 10 ft. May be used as small tree or kept trimmed as shrub. New growth in spring is blood red, changing to green and again to bronze red in winter, bearing clusters of red berries. 18-24 in.—\$1.00; 2-3 ft.—\$1.50; 3-4 ft.—\$2.00. 4-5 ft.—\$2.50.

HYPERICUM H. KALMIANUM — A low, hardy shrub; has narrow evergreen leaves and yellow flowers in flat topped clusters. 15-18 in.—35c.

HYPERICUM MOSERIANUM — 2 ft. An attractive shrub with drooping branches and flowers. 15-18 in.—35c.

PYRACANTHA ROSE DALE — 12 ft. Upright. Red berries. 2-3 ft.—\$1.35; 3-4 ft.—\$1.75.

PYRACANTHA YUNNANENSIS — 6 ft. Broad spreading type. Coral-red berries. 2-3 ft.—\$1.35; 3-4 ft.—\$1.75.

PYRACANTHA LALANDI — 12 ft. Upright in growth, orange-red berries. 18-24 in.—75c; 2-3 ft. \$1.00; 3-4 ft.—\$1.50.

PAMPAS GRASS - 75c to \$1.50 per clump, depending on size.

REDLEAF BARBERRY — 6 ft. Leaves beautiful coppery red. Good as shrub or hedge. 15-18 in.—30c.

SANTOLINA — 1 ft. Low growing, many stemmed plant. Silvery-gray foliage. Fine for rock gardens or borders. 25c to 75c per clump.

SNOW DROP — Can be trained on trellis or grown as bush. Covered in spring and summer with white blooms. 18-24 in.—30c; 2-3 ft.—45c.

Ornamental Shrubs

φ DECIDUOUS φ

The following listed shrubs may successfully be used in softening border lines, edges of walls, filling depressions, as screen plantings, covering slopes, or dividing areas. Careful selection as to varieties and height will insure color scheme and effect that will be a source of much pleasure.

CAESALPINIA (POINCIANA)—C Gillies, "Bird of Paradise"—8 ft. Large shrub or small tree with feathery foliage. Clusters of yellow flowers with bright red hair-like stamens several inches long. 2-3 ft.—25c; 3-4 ft.—35c; 4-5 ft.—50c.

CYDONIA JAPONICA, "JAPAN QUINCE" — 6 ft. Flame-like coral flowers in early spring, Medium plant—35c; Heavy plant—75c.

CYDONIA JAPONICA — Spreading type, peach colored flowers in early spring, followed by small apples. Medium—35c; Heavy—75c.

DEUTZIA, "PRIDE OF ROCHESTER" — 8 ft. Double white flowers tinged with pink. Strong upright growth. Medium plant—25c; Heavy plant—40c.

FORSYTHIA, "GOLDEN BELL" — 6 ft. Covered in early spring with a profusion of yellow flowers. Fine for arches or trellises. Medium plant—25c; Heavy—40c; Extra Heavy—60c.

ALTHEA — 10 ft. We have double pink, white, and purple. 3-4 ft.—35c; 4-5 ft.—50c; 5-6 ft.—65c.

CALLICARPA AMERICANA, "FRENCH MULBERRY" — 6 ft. The flowers are small, borne in short clusters in summer and the plants are grown chiefly for their bright lilac or violet colored berry-like fruits, very conspicuous in late autumn. 2-3 ft.—50c; 3-4 ft.—75c.

CREPE MYRTLE — 10 to 15 ft. Lavender or Watermelon red. 1½-2 ft. —15c; 2-3 ft.—20c; 3-4 ft.—30c; 4-5 ft.—40c. Balled and burlapped 15c extra.

DWARF POMEGRANATE — 3 ft. A miniature pomegranate with fresh green foliage, scarlet flowers and small, crimson fruit. Almost evergreen. Medium plants—65c.

FLOWERING ALMOND — 6 ft. A low, spreading shrub covered in early spring with double, rose-like flowers all along the stems. $1\frac{1}{2}$ -2 ft.—40c; 2-3 ft.—60c.

FLOWERING PEACH — 15 ft. Pink, white, and red. 2-3 ft.—25c; 3-4 ft.—35c; 4-5 ft.—50c.

LILAC, (PERSIAN LILAC) — 8 ft. 2-3 ft.—25c; 3-4 ft.—35c. WEIGELA ROSEA — 15-18 in.—20c; 18-24 in.—25c; 3-4 ft.—40c.

SPIREA (BRIDAL WREATH)

SPIREA BILLARDI — 4 ft. Blooms in long lavender spires. 2-3 ft.—25c; 3-4 ft.—40c.

SPIREA PRUNIFOLIA (True Double) — 6 ft. Blooms during April. Very small and very double flowers cover the drooping and graceful branches. 18-24 in.—25c.

SPIREA FROEBELLI — 3 ft. Dwarf Pink Spirea. 2-3 ft.—35c.

SPIREA THUNBERGI — 3 ft. Dwarf variety; flowers also smaller. 2-3 ft.—25c; 3-4 ft.—40c.

SPIREA VAN HOUTTI — When blooming looks like a snowbank. 2-3 ft.—25c; 3-4 ft.—40c.

CORAL BERRY - Native. 2-3 ft.-25c.

LANTANA — Yellow or pink. Strong plants—25c.

TAMARIX, "SALT CEDAR" — Has feathery green foliage and is covered in spring and summer with pink flowers. 2-3 ft.—25c; 3-4 ft.—35c; 4-5 ft.—45c.

VITEX — Lavender colored flowers in spires and also has distinct odor of lavender. May be made into either tree or shrub. 3-4 ft.—25c; 4-5 ft.—40c.

ORNAMENTAL TREES

MIMOSA— 20 ft. A beautiful flowering ornamental tree with fine-cut, fern-like foliage. Covered in summer with feathery pink blossoms. 2-3 ft.—25c; 3-4 ft.—35c; 4-5 ft.—50c; 5-6 ft.—90c; 6-7 ft.—\$1.25; 7-8 ft.—\$1.75; 10-12 ft. (Heavy) \$2.00.

CHINA TREE (TEXAS UMBRELLA CHINA) — 25 ft. The quickest and best shade of all. 3-4 ft.—35c; 4-5 ft.—45c; 6-7 ft.—60c; 7-8 ft.—75c.

SYCAMORE — 60 ft. 2-3 ft.—25c; 3-4 ft.—40c; 4-5 ft.—50c; 5-6 ft.—65c; 6-7 ft.—85c.

LOMBARDY POPLAR — 40 ft. Tall, narrow variety of Poplar. 3-4 ft. —20c; 4-5 ft.—25c; 8-10 ft.—75c.

LIVE OAK B & B — 50 ft. Evergreen and when established will do well under practically all conditions. 4-5 ft.—\$1.50; 5-6 ft.—\$2.00; 6-7 ft.—\$2.50; 8-10 ft.—\$3.50; 10-12 ft.—\$5.00.

PIN OAK — 50 ft. Almost evergreen and grows well under practically all conditions. 5-7 ft.—75c; 7-8 ft.—\$1.00; 8-10 ft.—\$1.25.

RED OAK — Same sizes and prices as Pin Oak.

CHINESE ELM and AMERICAN ELM — Prices on all Elm trees — 2-3 ft.—25c; 3-4 ft.—35c; 4-5 ft.—40c; 5-6 ft.—50c; 6-8 ft.—75c.

WEEPING WILLOW — 2-3 ft.—35c; 3-4 ft.—50c.

SUGAR MAPLE — 60 ft. Erect, symmetrical growth. Red foliage. 2-3 ft.—35c; 3-4 ft.—50c; 4-5 ft.—65c; 5-6 ft.—75c; 6-7 ft.—90c; 7-8 ft.—\$1.00; 8-10 ft.—\$1.25.

Nut Trees

PECANS — Our Pecan Trees are grown in our own Nursery on selected root stock. We are thus able to offer you hardy, dependable trees. Varieties: Moneymaker, Schley, Stewart, Delmas, Burkett, Success, Mahan, and John Garner.

Size	Each	Per 10	Per 100
1 - 2 ft.	\$.65	\$5.00	\$40.00
2 - 3 ft.	\$.80	\$6.00	\$50.00
3 - 4 ft.	\$.90	\$7.00	\$60.00
4 - 5 ft.	\$1.00	\$8.00	\$70.00
5 - 6 ft.	\$1.25	\$9.00	\$80.00
6 - 7 ft.	\$1.50	\$10.00	\$90.00

THOMAS BLACK WALNUTS — The heaviest bearer of them all. This is the walnut that has been publicized so much in all the farm papers for the last several years. We find it to be one of the fastest growing and most satisfactory shade trees to be had and the nuts are much larger than the native black walnuts, with thinner shells. The meats come out easily in halves and retain the delicious flavor of the native nut. Will grow well in practically any soil.

PRICES: 2-3 ft.—85c; 3-4 ft.—\$1.00; 4-5 ft.—\$1.35; 5-6 ft.—\$1.60; 6-7 ft.—\$2.00; 7-8 ft.—\$2.50; 8-10 ft.—\$3.00. Quantity prices on request.

Fruit Trees

All our Fruit Trees are budded from bearing trees and you can be sure of getting the variety that you order. All buds for the Stubenrauch line of peaches are gotten from the Luther Cox orchard at Mexia, Texas, considered one of the best in the state; the Womack orchard on North Highway 75, Corsicana; and our own orchard near Navarro, Texas. It is our intention at all times to offer the best varieties in fruits and to offer stock that is budded from trees that are actually in production.

PEACHES

.EARLY WHEELER — A large white peach with red cheek. Ripens June 1st.

MAMIE ROSS — Very large, blush, white flesh. Ripens June 12th.

CAUTHEN — One of our own discoveries. Found in J. E. Cauthen's yard in Italy, Texas. Semi-cling, large, heavy bearer ripens June 15th. Blooms almost as well as a flowering peach, very ornamental.

YELLOW GIANT — Large yellow peach; fine flavor. June 25th.

FAIR BEAUTY — Ripens around June 25th. A good market peach, coming off ahead of Elbertas.

EARLY ELBERTA — Ripens also around June 25th.

HILEY — White freestone dotted with pink and red, making it a beautiful peach. Also good market peach. Ripens June 30th.

ELBERTA — The best known of all varieties. Large yellow freestone—ripens July 10th.

TENA — One of the best of the Stubenrauch strain. Frost resistant, heavy bearing; a better marketing peach than Elberta. Freestone — yellow —red around seed. Ripens July 10th.

ELBERTA CLING — Large; similar to Elberta. Ripens July 15th.

AUGBERTA — Freestone. Ripens August 5th. Yellow, resembling Elberta, but later. Very prolific and good quality.

FRANK — We cannot say too much for the Frank peach. We find it the heaviest bearing of all peaches; frost resistant, yellow meated, cling. Ripens August 10th to 15th.

FRANKIE — Same shape, color and taste as the Frank, but it is a free-stone. Ripens with the Frank.

RED INDIAN — Old time variety, red meat cling seed; one of the best for pickling. Ripens August 1st.

KATY — Another Stubenrauch variety of frost resistant peaches. A giant freestone that is larger than Elberta, crossed between Bell October and Elberta. Ripens about August 20th.

LIBERTY — Considered by Mr. Stubenrauch as one of his best. A yellow clingstone very much like the Frank. Ripens about August 20th.

Prices on Peach Trees				
Size	Each	Per 12	Per 100

Prolific. Fine for eating or preserving.

2-3 ft. Light—20c; Heavy, well-branched—25c; 3-4 ft. Light—30c.

JAPANESE PERSIMMONS

AN ATTRACTIVE TREE, and the fruit is delicious. 3-4 ft.—40c; 4-5 ft.—50c; 5-6 ft.—60c.

GRAPES

CONCORD — The standard black grape. Thrives wherever grapes grow. Fine for table use or juice and jelly making.

NIAGARA — The standard white grape. Greenish-white changing to pale yellow when ripe.

R. W. MUNSON — Large, black. One of the best. Must have another variety planted with it for pollenization.

HERBEMONT — July. Medium sized, black, delicious when fully ripe. CARMEN — Medium size, black in color, very thick bunches.

ALL GRAPES - Strong plants-15c each; \$1.50 per dozen.

BERRIES

AUSTIN DEWBERRIES — Early, immensely productive. Large size and good quality. \$1.50 per Hundred.

YOUNGBERRIES — The new, big red berry with the distincitve Raspberry flavor. Jams and jellies made from Youngberries will please you beyond your fondest dreams. Fruit larger than Austin Dewberry and vines are equally productive. \$3.00 per Hundred.

BOYSENBERRIES — The newest thing in Berries. Appearance and taste similar to Youngberries, but larger in size. The seed are small and soft. 6c Each; 50c per Dozen; \$4.50 per Hundred.

DALLAS BLACKBERRY - \$3.00 per Hundred.

Ornamental Vines

HONEYSUCKLE (HALL'S) — A good cover and very fragrant — 35c.

Fresh Fruits In Season

We especially wish to call your attention to the fact that we have, near Navarro, Texas, the largest Fruit Farm in this section of the State. We grow every fruit adapted to this section and make delivery to your home at market prices.

TOMES OF

TIME OF PLANTING

PLANTING should be done as early as possible. Plants usually go dormant in this part of the country about the first of November. It is advisable to transplant as soon after then as possible. Consult us for the best time of Fall or Spring planting of the shrubs, flowers, trees and bulbs you are interested in.

TERMS

PRICES quoted herein are for Cash. If terms are desired, please make arrangements for same before placing order. Come in person and see what you are buying, or order by mail — Our guarantee of satisfaction applies in either case. Try McClung's . . . One Order Will Convince You!

Come to See Us

OUR NURSERY is located six miles south of Corsicana on paved Highway 75. We urge you to come to see us, and honestly believe that you will be surprised to find that ours is one of the largest and most up-to-date Nurseries in the Southwest. It is completely isolated from other nurseries or orchards and our stock is grown on land that has never grown nursery stock before; therefore we can offer you plants that are completely free from diseases of any kind. Our new air-conditioned Nursery building is open for your inspection, and we will be glad to take you through some of our 45 full acres of growing plants, and show you the very ones you want in all their natural beauty.

MORE AND MORE, gardeners are learning the wisdom of "Buying near Home" — where the plants have become acclimated and naturalized to the kind of soil they will find in your own yard . . . where the personal service and advice of the Nurserymen may be secured in selecting and landscaping problems . . . where, if desired, the stock may be chosen from the fields and not from the pages of a catalog . . . and where the PLANTS are LARGER and the PRICES are SMALLER!

BEFORE YOU BUY that plant from Pennsylvania or Paducah, glance back through this catalog and find the same item . . . compare the size and price . . . then COME TO McCLUNG'S for the real bargain. Our Nurserymen and Landscape Artists are always at your service.
